

Dear Parents/Guardians

In conjunction with Abacus Calculators, Eaton Community College has been able to negotiate a special deal for students requiring a calculator for 2017. All students at Eaton Community College studying Mathematics will require a calculator.

All Mathematics students in years 7 to 12 require a Casio fx82-AUPlus II calculator. Students undertaking a "Mathematics Essential" course in Year 11 or 12 will also require a Casio fx82-AUPlus II.

Students in Years 11 or 12 studying Mathematics Methods or Mathematics Application or Mathematics Specialist must also have a Casio Class Pad 400 calculator.

The College has managed to negotiate a special price for each of the calculators. The Casio fx82-AUPlus II will cost \$25.00 while the Casio Class Pad 400 will cost \$231.00.

You are not required to purchase the appropriate calculator from Abacus Calculators, but all Mathematics students must have the appropriate model for the start of the 2017 academic year. Failure to have the appropriate calculator will significantly disadvantage the student in Mathematics.

After deciding which calculator is required, orders can be submitted online at www.abacuscalculators.com.au with full payment.

Orders completed prior to the 20th January 2017 cut-off date will be delivered free to the school during the first week of term. Orders placed after this date will incur a \$14.95 delivery fee.

Order forms to complete the purchase are attached to this letter.

Should you have any questions about the calculator order or any other aspect of the Mathematics program at Eaton Community College, please do not hesitate to contact me on 9724 4444 during school hours.

Yours sincerely

Mr Brycen Godfrey
HOLA Mathematics
